

Pathways has continued serving our community in big and small ways during this uncertain time.

Our specialty clinics have expanded to provide COVID testing, we continue to pass out free produce each week and our current cohort of students restarted in-person classes after a period of remote learning.

We are looking forward to upcoming events on the horizon, such as HarvestFest later this fall, and appreciate your continued support.

Success Stories:

Two students completed their Penn Foster High School Diplomas during the Covid-19 pandemic with 3.6 and 3.69 GPAs!

Congratulations to our seven students who completed their Personal Care Aid, and five students who received their NCCER, certifications.

Despite our summer closure, the clinic continues to see much success, and we gave out 200 bags of produce in August.

Happy birthday, Ron!

Our wonderful clinic coordinator Ron Thompson (photographed left with Celebration of Gifts recipients) celebrated his 71st birthday on August 14 — we are so grateful for him, and amazed he is still running marathons!
